FEDERSTAHL, DISPLACEMENT, AND THE MCCULLEN LINE

1832 — WITHHELD DISPLACEMENT EVENT [FULL]

- **Entities:** Firewalled for Season 1 writers room use
- **Source:** [canon/slayverse_index.json; canon/open_threads.md; canon/organizations/organizations.md]

A source-canon displacement event connects the Lattice Fracture to the later McCullen line, but the personal identity and causal logic behind that connection are intentionally withheld from Season 1 writers room framing.

[canon/cosmology/cosmology.md;](#)
[canon/organizations/organizations.md\]](#)

The Crystal Lattice Incident creates seven fissures and scatters erased persons through time.

Canon Notes:

- The Federstahl Lattice Incident is an ontological deletion event, not merely a time fracture. [LOCKED]

SEASON 1 FINALE — USER-HELD REVEAL [PENDING REVIEW]

- **Entities:** Firewalled for writers room use
- **Source:** User direction, 2026-05-16

The user is holding the Season 1 finale reveal. Writers room-facing timeline materials should not disclose the hidden causal turn. Vorst may appear only in his pre-finale depiction unless the user explicitly provides finale scope inside the task.

Dramatic Function: Preserve the missing shape around the wound and keep Season 1's present-day pressure centered on Jake's pseudo-antagonistic rejection.
