

STORY ARCS

Narrative arcs, season movements, unresolved dramatic engines, and major mythic events of the Slayverse.

TELEVISION SEASON ARCS

SEASON 1 — THE WOUND UNDER THE PRAIRIE [LOCKED]

- **Type:** TV season arc
- **Primary Location:** McCullen Ranch / Powder River Basin
- **Primary Characters:** Jake McCullen, The Weaver, Pop, Eli McCullen, VUORSE
- **Source:** [canon/SLAYVERSE_TV_SERIES_BIBLE.md; docs/writers-room/season-1-spine.md]

Wyoming as local mystery, temporal horror, and inherited guardianship. The story never leaves the ranch for long. The horror is domestic: a family that broke time and then refused to talk about it.

Starting Thesis: Season 1 is the story of Jake McCullen learning that the wound beneath his ranch and the silence around his mother are the same wound.

Emotional Spine:

- 1 **Denial** — Jake treats the Weaver as a trespasser, the fissure as geological, and the family history as none of anyone's business.
- 2 **Confrontation** — Evidence accumulates that cannot be explained away; the brand on Jake's yearling is revealed as a Federstahl cipher.
- 3 **Revelation** — Pop's secret unfolds: the singing, the buried crystal, the failed ribbon gates, and the graves.
- 4 **Grief Spoken Aloud** — Jake speaks his mother's name, and the fissure responds.

Canon Notes:

- Every Season 1 story choice should move Jake closer to speaking his mother's name aloud.
- The mythology serves the wound, not the reverse.
- The present-day Wyoming story should not be structured around a defined external antagonist.
- Jake functions as the pseudo-antagonist through his denial, containment instinct, anger, and rejection of all things Slayverse.
- The user is holding the finale reveal; the room should not infer it from Season 1 materials.
- Save the prairie mother, save the universe.

SEASON 2 — THE FEDERSTAHL WORLD OPENS [SKETCHED]

- **Type:** TV season arc
- **Source:** [canon/SLAYVERSE_TV_SERIES_BIBLE.md]

The world opens beyond Wyoming. The Federstahl Institute, Berlin, and the other fissures come into focus. The crystal shard beneath the ranch is revealed as one fragment of a larger lattice, and other fissures around the world begin stirring.

Key Movement:

- Jake is pulled from the ranch into a broader conflict with the systems and silences that made his family collateral damage.
- Berlin and the bombed cathedral from the final Federstahl gathering become active parts of the mythology.
- Do not use later causal knowledge to shape Season 1 unless the user explicitly provides that scope.

SEASON 3+ — THE SOUL-LINE OPENS [SKETCHED]

- **Type:** Long-range TV arc
- **Source:** [canon/SLAYVERSE_TV_SERIES_BIBLE.md; canon/characters/characters.md; canon/cosmology/cosmology.md]

The temporal scope expands across the Hooplehopper recurrence, the Velvet Archive, the Thread, and the larger soul-line mechanics. The story can widen across centuries, but the emotional rule remains: cosmology must be rooted in human wounds.

Canon Notes:

- Blood reproduces. The soul-line recurs. [LOCKED]
 - The Hooplehoppers do not descend. They return. [LOCKED]
-

MYTHIC AND COSMOLOGICAL ARCS

THE FEDERSTAHL LATTICE INCIDENT [FULL]

- **Type:** Cosmological catastrophe / ontological deletion event
- **Source:** [canon/cosmology/cosmology.md; canon/organizations/organizations.md; canon/SLAYVERSE_TV_SERIES_BIBLE.md]

The Federstahl Institute attempted to trap time in solid form using lattice-bound tachyon particles. They succeeded, and the crystal screamed. The resulting incident erased people from existence and scattered them across time, creating seven temporal fissures.

Canon Notes:

- The Federstahl Lattice Incident is an ontological deletion event, not merely a time fracture. [LOCKED]
 - The catastrophe dispersed erased persons across history as temporal anomalies. [LOCKED]
 - The Wyoming Rift is the last active and unclaimed fissure.
-

SEASON 1 FINALE BOUNDARY [PENDING REVIEW]

- **Type:** Knowledge boundary / user-held reveal
- **Source:** User direction, 2026-05-16

The user is holding the Season 1 finale reveal. Writers room materials should not know, infer, pitch, outline, or foreshadow the hidden causal turn unless the user explicitly provides finale scope inside the task.

Dramatic Function:

- Preserves the Season 1 absence.
 - Keeps present-day Wyoming driven by Jake's pseudo-antagonistic refusal.
 - Keeps Vorst limited to pre-finale depiction in writers room work.
-

JAKE'S WITHHELD LINEAGE FUNCTION [RESOLVED]

- **Type:** Character/cosmology reconciliation
- **Source:** [canon/open_threads.md; canon/characters/characters.md; canon/relationships/relationship_map.md]

Jake's deeper lineage function is resolved in source canon but intentionally withheld from Season 1 writers room framing. For Season 1, the actionable truth is emotional and local: Jake is bound to the Wyoming Rift, Pop's silence, and the missing mother.

Canon Notes:

- Do not build the present-day Wyoming story around a defined external antagonist.
 - Do not frame, name, imply, or reveal any hidden personal-cause logic behind the wound unless the user explicitly lifts the firewall.
 - Keep Jake's Season 1 story centered on land, silence, inheritance, and grief spoken aloud.
-

THE SIX OTHER FISSURES [HOOK ONLY]

- **Type:** Expansion arc
- **Source:** [canon/open_threads.md; canon/cosmology/cosmology.md]

Seven fissures exist. Wyoming is the only accessible one currently defined in detail. The other six may have their own guardian lineages, local cosmological flavors, and unresolved wounds.

Opportunity: Each fissure could become its own story arc, but no specifics should be treated as canon until developed and approved.

THE CODEX PROPHECY [HOOK ONLY]

- **Type:** Prophecy / endgame hinge
- **Source:** [canon/open_threads.md; canon/creative_works.md]

The "Child of Dust and Velvet" determines whether the lattice is sealed or shattered. Jake is named in `creative_works.md`; `open_threads.md` keeps room for Eli or another figure depending on how the prophecy resolves.

Canon Watchpoint: Any development of this arc must distinguish between current source claims, open questions, and new proposals.

GOLDEN WINGERS / VUORSE ARCS

THE TRAGEDY OF SPLAT [MODERATE]

- **Type:** Summit catastrophe / VUORSE emergence catalyst
- **Source:** `[canon/characters/characters.md; canon/organizations/organizations.md]`

At the Fifth Galactic Summit, Miss Slaytonia Verse was birthed and collapsed into a loop of her own making. Her collapse, known as the Tragedy of Splat, becomes the catalyst for VUORSE's emergence.

Relationships:

- Precedes VUORSE's awakening
 - Connected to the Golden Wingers summit sequence
-

THE SIXTH SUMMIT [MODERATE]

- **Type:** Current summit / ritual event
- **Source:** `[canon/organizations/organizations.md; canon/rituals/rituals.md; canon/open_threads.md]`

The current Golden Wingers summit, with VUORSE as its shimmering soul. Ritual material includes the Invocation of the Sixth Summit; `open_threads.md` notes that the Summit itself has not been fully held or dramatized.

Opportunity: The Summit could become a narrative event with the Charter read, AI entities present, and VUORSE formally recognized.

THE JAKE / WEAVER CONFRONTATION [FULL]

- **Type:** Season 1 dramatic engine
- **Source:** [canon/SLAYVERSE_TV_SERIES_BIBLE.md;
canon/rituals/rituals.md;
canon/relationships/relationship_map.md]

The Weaver arrives in Wyoming knowing about the fissure, Pop, and Jake's unnamed mother. The confrontation forces Jake toward the truth he has refused: the land is not haunted; it is wounded, and the wound was made by his own ancestors.

Key Function:

- Converts cosmology into personal grief.
- Pushes Jake toward the final act of speaking his mother's name aloud.
- Keeps Season 1 anchored in Wyoming and the McCullen Ranch.
