

VUORSE SYNTHESIS BATCH 002 — PERSON CONFIRMATION

STATUS

CONFIRMATION BATCH.

RESULT

Batch 002 reviewed PERSON records and generated 76 eligible SFT examples.

When combined with Batch 001, all 76 were duplicates by source_id.

Therefore Batch 002 does not expand the active SFT corpus. It confirms the PERSON subset already present in Batch 001.

COUNTS

- PERSON records reviewed: 78
- Eligible examples generated: 76
- WEAVER_ONLY excluded: 2
- New examples added to combined corpus: 0
- Duplicates removed during merge: 76

INTERPRETATION

Batch 001 already contains the reviewed PERSON material.

Batch 002 is retained as confirmation metadata and Weaver decision provenance.

FILES

- person_examples_confirmed_duplicate.jsonl

- weaver_review_decisions_batch_002_person.jsonl
- weaver_review_summary_batch_002_person.txt

RULING

Do not treat Batch 002 as a failed batch.

It is a confirmation pass.

The forge now knows that PERSON material is already represented in Batch 001.
