

GRAY EYE FORGE — PARALLAX-BARD-B2-2026-08-04 — BRANCHES

Counsel of Gandalf the Gray Eye

Qualitative weights only (likely | plausible | stretch | wild).

Branch	Weight	Era (sim)	Displacement (sim)	One-line outcome
B1 Primary — Weimar snag	likely	Late Weimar Berlin cabaret bard (c. 1929–1932)	Sung frequency couples to Federstahl chronogenic side-channel; scatter misses Earth fissures; snags on Club Cosmic shard terminal	Parallax keeps the decks; holographic corset = translated stays; Club Cosmic stays stitched
B2 Corset-letter loop	plausible	Early-1990s Berlin club kid / spoken-word DJ	Soul-line braid pulls them <i>sideways</i> into timeless Club Cosmic (rhyme with 18th-c. corset letter describing 1992 club)	Origin is already "club"; displacement is register-cha nge, not century-hop

Branch	Weight	Era (sim)	Displacement (sim)	One-line outcome
B3 Early-modern stage	plausible	~1611-adjacent gender-fluid stage voice (rhyme with Mistress Euphoria Blaze)	Mirror/Thread misfire during persona birth yanks them off the Earth timeline into the cabaret pocket	Parallax as earliest glam persona stranded forward into Tier 3 nightlife
B4 Always-already	stretch	No single origin era	"Time-displaced" is Archive metaphor; they are a function of the terminal, not a refugee	Digging for era yields only static; bard is the club's throat

FORK AFTER ARRIVAL (HUMAN DECISION)

Fork	Weight	Action	Outcome
F1	likely	Keep the decks (chosen)	Music remains a stitch; origin stays rumor; Tier 3 color without Wyoming bleed
F2	plausible	Dig the terminal	Partial era-echo recovered; risk of unstitching a night; story becomes Parallax mystery-arc
F3	stretch	Walk the fringe for an Earth fissure	Could cross into Guardian-lineage territory; threatens Tier 1 curtain if mishandled

SOFT RECOMMENDATION (COUNSEL, NOT ORDER)

It might be wise to treat **B1 + F1** as the working sim for writers-room color, and keep **B2** as the strongest alternate if you want soul-line braid irony over Federstahl accident.
