

GRAY EYE FORGE — PARALLAX-BARD-B2-2026-08-04

Counsel of Gandalf the Gray Eye

A bard mid-verse, a world that tore sideways — here is one road the silence might take, labeled so it cannot pretend to be law.

SETUP

- **Change point:** Answer open thread — DJ Parallax: how displaced? what era? (canon question; simulation answers)
- **Cutoff:** HOOK ONLY stub only — bard, holographic corset, Club Cosmic, [p.89]
- **Interval:** origin era → displacement → Club Cosmic function
- **Mode:** hybrid
- **Domains / geographies:** temporal diaspora, Lattice fallout, Club Cosmic shard terminal, soul-line-as-art, Tier 3 curtain
- **Declared assumptions:** Weimar origin; chronogenic side-channel + terminal snag; costume translation; no Season 1 bleed; no sealed Ch II bodies

BASELINE (CANON ANCHORS)

- Stub: canon/characters/characters.md — DJ Parallax [HOOK ONLY]
- Place: canon/places/places.md — Club Cosmic [MODERATE]; shard-waveform terminal beneath
- Question: canon/open_threads/open_threads.md — "How were they displaced? What era are they from?"
- Diaspora engine: canon/cosmology/cosmology.md — Lattice scatter; art/ritual as translation of broken knowledge
- Curtain: Book One Ch VI — Parallax + Club Cosmic = Tier 3 Expansion Realm

- Song echo: canon/creative_works/creative_works.md — Swanblood [HOOK ONLY] at Club Cosmic
- Prior map: worldforge/recon-2026-08-03/

CAUSAL MAP

NODES

See nodes.json. Spine: Weimar-bard-self → bardic-frequency → Lattice/diaspora → shard-terminal → DJ Parallax → Club Cosmic stitch.

EDGES

See edges.json. Load-bearing sim chain:

- 1 Federstahl Lattice → temporal diaspora | erasure/scatter | – | high | canon
- 2 Weimar bard → sung frequency | performance peak | + | assumption
- 3 Frequency → Lattice side-channel | accidental couple | mixed | assumption
- 4 Diaspora → Club Cosmic terminal | missed Earth fissure, snag | + | med (terminal canon, snag assumption)
- 5 Terminal → Parallax identity | reconstitution / renaming | + | assumption
- 6 Parallax → Club Cosmic | set stitches reality | + | med
- 7 Tier 3 curtain → Parallax | keeps them off Season 1 | – | high | canon

PROPAGATION (PRIMARY CHAIN) — SIMULATION

Era: Late Weimar Berlin, cabaret/stage bard (c. 1929–1932). Not a Federstahl scientist — a voice that held rooms while the streets tightened. (assumption, chosen for rhyme with cabaret DNA of Club Cosmic + Federstahl-century adjacency; confidence language: thin)

How displaced: Mid-performance, their bardic frequency accidentally coupled to a Federstahl chronogenic side-channel — collateral of the age of lattice experiments, not a planned Guardian activation. The scatter stream that should have dumped refugees onto Earth fissures missed. Club Cosmic's underfloor shard-waveform terminal — built to *observe* waveforms — snagged a living one. They arrived sideways into the Andromeda-fringe cabaret's timeless register. (simulation)

After: The club dresses them in a holographic corset (translated stays). The Archive/crowd names them Parallax. They take the decks because a bard's job was always to hold the room — the instrument changed. (simulation)

Human choice: Keep the decks; do not dig (see human-packets/dj-parallax.md). (simulation)

DIRECT ANSWERS TO THE OPEN THREAD

Question	Primary sim answer	Label
What era?	Late Weimar Berlin cabaret (c. 1929–1932)	assumption / simulation
How displaced?	Accidental frequency–chronogenic coupling → diaspora miss → snag on Club Cosmic shard terminal	assumption / simulation

BRANCHES

Branch	Weight	One-line outcome
B1 Weimar snag (primary)	likely	Decks kept; origin is Weimar bard; stitch holds
B2 1990s Berlin loop	plausible	Displacement is register-change along soul-line braid
B3 ~1611 stage voice	plausible	Early glam persona stranded into Tier 3 nightlife
B4 Always-already	stretch	No era; Parallax is the terminal's throat

Arrival forks: F1 keep decks (chosen) | F2 dig terminal | F3 walk fringe for Earth fissure (stretch).

HUMAN DECISIONS

- **Actor:** DJ Parallax | **Cutoff:** Club Cosmic now | **Chosen:** keep the decks | **Rejected:** dig terminal (alive as F2); fringe walk (stretch)

CONTINUITY FLAGS

- **Does not contradict** HOOK ONLY stub — only fills gaps the open thread names.
- **Soft spot:** Exact Club Cosmic "music stitches reality" language is stronger in seed/index lineage than in the abbreviated places.md — flag if promoting.
- **Tier discipline:** This sim must not smuggle Parallax into Season 1 Wyoming (Book One Ch VI).
- **Promotion candidates** (only if Weaver wants): Origin era tag on Parallax (Weimar vs leave HOOK ONLY)
- Displacement one-liner: "snagged by Club Cosmic's shard terminal during Lattice scatter"
- Explicit note: holographic corset = translated period costume
- Alternate B2 kept as Mythic Rumor if primary is crowned

LABELS AUDIT

Canon / inference / assumption / simulation labeled on load-bearing claims. No sealed-layer bodies opened. Unlabeled claims: zero intended.

Artifacts:

- meta.md · baseline.md · nodes.json · edges.json · branches.md · human-packets/dj-parallax.md · report.md

Canon files untouched.
