

GRAY EYE FORGE — RECON-2026-08-03 — BRANCHES

Counsel of Gandalf the Gray Eye

Where a steward might next walk. Weights are qualitative (likely | plausible | stretch | wild), not calibrated probability.

Branch	Weight	One-line outcome
B1 Seal this recon into worldforge/recon-2026-08-03/	likely	Gray Eye gains a permanent foothold; later sims have a baseline
B2 Run a named what-if from open threads	plausible	Causal memo on a specific gap (Eli, six fissures, century gaps)
B3 Dig the LoRA / pitch-deck asset mine	plausible	Visual continuity map without touching lore status
B4 Open sealed doors under explicit Weaver invocation	stretch for <i>this</i> ask	Finale / Ch II / walled debrief — only if you lift the veil

NOTES

- B1 is the execution of this run (simulation of stewardship choice; now enacted).
- B2–B4 are not executed here. Provenance for gaps: canon/open_threads/open_threads.md.
- B4 requires explicit Weaver invocation per CLAUDE.md / AGENTS.md; Gray Eye will not walk that road unbidden.
